

Fault report | Gazebo exit code 255

Author: Nicolas Hammje

Title: Gazebo exit code 255

Problem Encountered:

When trying to launch gazebo it would exit with code 255, show up but be empty w nothing in it

Solution Implemented:

the problem stems from gzserver still running. Run "top" to find the PID associated with the gzserver process, then run `sudo kill <PID>` to kill it.
