Author: Nicolas Hammje

Title: acados lib qpOASES not found

Problem Encountered:

When trying to install acados and running the minimal example, there is an OS Error that says
lib_qpOASES not found

Solution Implemented:

You need to set the environment variables 1) nano ~/.bashrc 2) add lines: export
ACADOS_SOURCE_DIR="/path/to/acados/" and line export
LD_LIBRARY_PATH="/path/to/acados/lib"
